

**The Club at CamClinic**  
**1928 South 16<sup>th</sup> Street**  
**Wilmington, NC 28401**  
**Tel: (910)342-0999**

The Cameron Clinic is excited to offer The Club at CamClinic. This is a wonderful opportunity to access cutting edge technology in one location. The Club wants to be part of your team to help you take control of your health and wellness. Good health allows you to enjoy life!

The Club at CamClinic is a Private Membership Association established to increase treatment options for individuals. Our Association understands that wellness has many dimensions and strives every day to stay on the leading edge of new technology. This allows you a variety of options to design a comprehensive health and wellness program. The Association provides comprehensive, complementary alternative care and cutting edge technologies to evaluate many aspects of your health and provide effective treatments at an affordable fee. These include: wellness evaluation and testing with Zyto™ technology and the following therapies – Life Vessel, Rife machine, MultiLumen, Theralumin, LiveO2®, ENG3 NanoVi™, and EVOX®.

**Life Vessel**, the ultimate experience to Relax and De-Stress, Balance and Restore. We remain the only location on the East Coast. Members will be able to schedule one or more sessions. We believe that the best results are obtained when doing the protocol of four approximately one hour sessions monthly for three months.

**ZYTO technology** is based on the body's ability to respond to subtle stimuli. Using the body's natural energetic field, a communication link is established between the patient and the computer via the ZYTO hand cradle. Through this connection, ZYTO sends stimuli and then records the body's response. This conversation is called biocommunication, and it provides insights into health and wellness.

**EVOX**, another component of the Zyto technology, facilitates a process called Perception Reframing. Perception is the way you feel and think about something. Because we perceive more than we are aware of, perception is more often 'felt' rather than 'thought about.' EVOX uses the voice (VOX is Latin for voice) to map perception about specific topics like health, relationships, work or athletic performance; any aspect of life. It then analyses that map, called a Perception Index, and creates a playback information packet that the body uses to bring perception to the level of awareness and allow it to be reframed. EVOX is used to improve every aspect of human performance.

**Rife Machine** is based on the concept that all cells and organisms have their own vibratory signature. There are certain vibrations that heal and that kill. There are hundreds of programs to choose, from colds and flu, liver support, abdominal inflammation to anxiety and relaxation.

**MultiLumen** uses light (photodynamic therapy) and specific frequencies to address problems like DNA healing, neuro-immune, circulation, neuropathy, muscle injury, bone healing, inflammation, collagen and toe nail fungus. You can do one program for 30 minutes or 2 programs for 15 minutes.

**TheraLumen** uses light and frequency to address microbial and fungal overgrowth in the sinus cavities. The sinus area behind your nose is the one location there is no blood brain barrier. This allows the light therapy to penetrate the brain more easily to help stimulate activation of brain cells. Oral liposomal methylene blue can be used as a photosensitizer to improve treatment effects.

**LiveO2** Oxygen therapy is fantastic because more oxygen translates into more cellular energy, more healing energy and more overall energy to help us feel good and perform better in life. LiveO2 is about Inflammation and the best, most straight-forward way of addressing it. LiveO2 restores the blood micro-circulation and consequently we see a permanent elevation of oxygen influx and uptake. Oxygen is vital to every physiological function of the human body.

**NanoVi** device helps protect and reinstate essential protein functions. Loss of proper protein function results from oxidative stress and is an underlying cause of aging and chronic disease. Water plays an important role in the proper folding of proteins so that they can function properly. The NanoVi uses the special properties of water (exclusion zone or EZ water) to influence protein folding, which improves cellular function. Water droplets in a humidified airstream are exposed to a specific bio-identical signal known to initiate repair mechanisms in the body and then inhaled using a touch free delivery system or nasal cannula.

Better cellular repair is key to: speeding recovery and regeneration, improving energy, strengthening the immune system, promoting healthy aging and helping to fight many chronic diseases.

These treatments are not a one-time event to fix the problem. The more issues you have the more frequently you should plan to schedule sessions. Combining the different modalities can help to re-charge your battery. As long as the energy of our body, mind and spirit are strong the better we feel about our self and living life to the fullest.

To get the most out of your care and enjoy the services listed above you will need to become a member of The Club at CamClinic. You do not have to be a patient of the Cameron Clinic to join The Club at CamClinic. If you are not a patient of Cameron Clinic, you will need to schedule of 25 minute consultation to set up an individualized plan.

The Cameron Clinic of Oriental Medicine continues to offer the time tested traditions of Pan Asian Medicine including acupuncture, use of the Acutron for micro-current therapy, cupping and guasha, biomats, nutritional supplements and lifestyle counseling combined with the best of western science. Cameron Clinic will continue our mission to provide each patient with individualized care; you are not just another number. It's important to us that you understand your treatment options and choose the care you need and want. Our goal is to help you achieve good health thru the time tested traditions of Pan Asian Medicine, and to incorporate the best of western science.

The Cameron Clinic of Oriental Medicine specializes in acupuncture and the use of nutritional supplements and herbs. Health is the quality of your life.
